

EMPLOYMENT

CNN - New York, NY

Motion Designer, January 2022 to July 2022

Created and revised over 15 templates and mogrts for Interview Club in a short 2-month period. This involved heavy After Effects expression coding and animation. Used problem-solving skills to make the templates easy to use, while maintaining the integrity of the animation guidelines.

Spectrum News - New York, NY

Senior Motion Designer, January 2019 to December 2021

Joined a new team as the lead motion designer to bring three new web series to life. Title sequences, motion-tracked graphics, vector-based animations, and some visual effects-based graphics are designed for each series. Also design animations for various on-air news requests, Spectrum News App graphics, marketing materials, and even Instagram gifs. Create motion design templates for editors and other motion designers to work more efficiently and effectively.

GQ & GQ Style - New York, NY

Motion Designer, January 2018 to November 2018

Worked on motion projects across the brand including Snapchat Discover, video, social, and web. Became the motion design lead for collaborating with illustrators to bring their work to life on Snapchat. Created title sequences for GQ web series as well as marketing animations for upcoming issues.

Facebook - New York, NY

Motion Graphic Designer, March 2017 to December 2017

Created motion graphic animations that were used for internal training videos. The videos were comprised of explainer style illustration animations and UI manipulation. The projects had very quick turnaround times and had to adhere to strict deadlines.

FREELANCE

Paramount - New York, NY

Motion Designer, July 2022 - Present

Work on various elements for a number of different programs across Paramount. These include lower thirds, compositing, motion tracking, creating graphics for tv spots, and modifying graphics for various aspect ratios across different social media platforms.

Amazon Music - New York, NY

Motion Designer, May 2023

Coded a dozen mogrt templates for different Amazon Music programs to use across social media platforms.
